Why Belarus?

- Belarus is a unique and beautiful country, which is located in the center of Europe. It shares borders with five other countries: Poland, Ukraine, Lithuania, Latvia and Russia. The whole area of the Republic occupies about 207.6 sq.km with a population of 9 465 400. It consists of six districts with its capital – Minsk. State languages are Russian and Belarusian.
- Belarus is an independent and highly developed industrial country. It is proud of its rich historical past and an exuberant natural environment. According to the latest information of UNO, Belarus was ranked as a country with a high quality of life. Belarus is on the 68-th place in the Index of Human Development among 170 other countries, which is ahead of all countries of CIS region.
- Belarus, in a way, is cross area where the most important trans European railway arteries converge along with highways, oil and gas pipelines, water and air routes uniting the economically developed Western Europe and Asia, which has an abundance of natural resources.
- The nature of Belarus is truly unique. It is a land of forests and thousands of rivers and lakes, wide green fields and grasslands. Here you can find rare species of plants and animals, such as white fir and European mink. Around 7.7% of the country territory is under ecological governmental protection. Among the most popular ecological sites is a park called “Belovezhskaya Pushcha”.
- Belarus is a land of a great historical past and a rich cultural heritage. It is a land of castles and churches, palaces and parks, ancient treasures. Every day numerous museums and theaters are happily invite their visitors.
- Belarus is a motherland of many remarkable people, such as a pioneer in book printing Frantisk Skorina, a saint apostle Yefrosiniya, Byelorussian noble family of Radzivils, it is a motherland of a famous painter Mark Shagal.
- Byelorussians are a very friendly nation. Most of the people from other countries are welcomed here with a warm heart and a great hospitality without discrimination based on nationality or religious believes. Belarus has an extensive experience in the international politics of inviting foreign guests to the country. There has been developed a whole range of different practices striving to make their stay as safe and comfortable as possible.
- There has been a dynamic development in the educational system of the Republic of Belarus in recent years. Academic staff of universities of Belarus is presented with highly skilled specialists. Taking into consideration part time staff, there are over 27082 of teaching professors work in state educational establishments, about 1313 of them are grand PhD specialists, 8530 – PhD specialists. 1242 professors have acquired the title of PhD professor, 7040 – associate professor.
- Research and development is carried out by more than 300 scientific organizations, universities, and large manufacturing enterprises, including a number of 20,000 researchers.
- Education in Belarus gives you an excellent opportunity to become fluent in Russian, to gain the experience of talking to native speakers, to immerse yourself in life, culture and traditions of the country, and also make new useful contacts.

- Education in the Republic of Belarus is of high quality, it meets the international standards. It also provides the highest level of practical learning in a number of specialized fields.
- Belarusian universities are recognized all over the world for the versatility and quality of education. University graduates are in great demand in the Belarusian and international labor markets.
- According to the latest data 12,136 students from 88 countries take their courses in Belarus. During current academic year the number of foreign students in the country has increased by more than 2000.
- In 2002, after enforcing a decree “About becoming parties to the Convention regarding evaluation of qualifications, which pertain to the area of higher education of the European region”, Belarus became a legitimate member of the Lisbon Recognition Convention of 1997 called “About recognition of qualifications in higher education” , which was developed by UNO and European Union. At the present time Belarus is working on having its higher education being accredited by the Bologna Agreement.
- A great number of educational establishments of the Republic of Belarus actively cooperate with such political organizations as UNO, UNCEF, UNDP, European Union, European Commission, European centers of professional improvement, etc.
- The whole procedure of the admission process to Belarusian universities and colleges is quite simple and transparent. There are no entry tests and international certificates of English language proficiency (IELTS, etc.) are not required.
- Students, who have chosen Belarus as a country of their studies, may choose from over then 54 universities. At the present time, about 45 state academic establishments are functioning in the Republic of Belarus (31 state universities, 7 academies, 3 higher education institutions and 4 higher education colleges), as well as 9 private academic establishments. Among these universities there are classic universities, medical, technical, agrarian, etc.

Briefly about Belarus

Official Name: The Republic of Belarus

Location: Central part of Europe

Area: 207 600 km²

Capital: Minsk

The republic borders: with Lithuania to the northwest, with Latvia to the north, with Russia to the northeast and the east, with the Ukraine to the south, with Poland to the west

Population: 9 465 400 people (more than 70% are urban residents)

Belarus consists of **six regions:** Brest, Vitebsk, Gomel, Grodno, Minsk and Mogilev

The biggest cities are: Brest (322 105), Vitebsk (367 773), Gomel (492 100), Grodno (327 540), Minsk (1 888 900), Mogilev (364 072)

Official languages: Belarusian and Russian

Religion: mostly Christianity - Orthodoxy, Catholicism, Protestantism. Judaism and Islam are the most common among other religions

Form of government: State Republic

National currency: belarusian ruble (Br). The banknotes of 50, 100, 500, 1,000, 5000, 20000, 50000, 100000, 200000 rubles are issued

Climate: temperate continental with mild and wet winters, warm summers and damp autumns. The average January temperature is from -4 ° C to -8 ° C and from +17 ° C to +19 ° C in July

Timezone: UTC+3

Phone code: +375

Internet domain: .by

Electricity: voltage 220 V, frequency 50 Hz

Distance from Minsk to the capitals neighboring countries:

Vilnius – 215 km

Riga – 470 km

Warsaw – 550 km

Kiev – 580 km

Moscow – 700 km

Non-working holidays and commemorative days in Belarus:

January 1st – New Year

January 7th – Christmas (Orthodox)

March 8th – Women's Day

9th day after the Orthodox Easter – Radunitsa

May 1st – Labour Day

May 9th – Victory Day

July 3rd – Independence Day

November 7th – Day of the October Revolution

December 25th – Christmas (Catholic)

Address: 4 Nezavisimosti Ave.,
220030, Minsk, Belarus

Phone: +375 17 226 59 40

Fax: +375 17 226 59 40

The university was founded in 1921. Belarusian State University is the leading higher educational institution of the national education system of the Republic of Belarus. According to the most reputable international rating agencies Belarusian State University is in the top 3% of the world's best universities. It rates quite high in the index of 30,000 existing institutions of higher education. Belarusian State University is a major educational, scientific, production and cultural center, largely defining national identity, economic development, education, science and culture of Belarus. The university consists of 25 departments and institutions, as well as lyceum and College of Law, 4 scientific research institutes, 9 scientific centers, 41 scientific research laboratories, 11 innovative and production enterprises. It provides academic training for specialists of the first level of higher education of more than 58 specialties, over 48 specialties at graduate school, over 118 specialties at postgraduate school and over 75 specialties at PhD school.

FACULTY:

2506 – the number of teaching professors (296 Grand PhD, 1411 PhD)

SPECIALTIES OF THE 1st LEVEL OF HIGHER EDUCATION

Department of Mathematics and Mechanics: *Mathematics (majors in). *Mechanics (majors in).

Department of Applied Mathematics and Computer Science: *Applied Mathematics (majors in). *Computer Science. *Actuarial Mathematics. *Economic Cybernetics (majors in). *Computer Security (majors in). *Applied Informatics (majors in).

Department of Radiophysics and Computer Technologies: *Radiophysics. *Physical Electronics. *Computer Security (majors in). *Applied Informatics (majors in). *Aerospace Radio-Electronic and Information Systems and Technologies.

Department of Physics: *Physics (majors in).

Department of Chemistry: *Chemistry (majors in).

Department of Biology: *Biology (majors in). *Bioecology. *Microbiology. *Biochemistry.

Department of Geography: *Geography (majors in). *Geology and Mineral Prospecting. *Geoecology.

Department of Economics: *Economic Theory. *Economics. *Finance and Credit.

*Management (majors in).

Institute of Journalism: *Journalism (majors in). *International Journalism. *Information and Communication. *Literary Criticism (majors in)

Department of Philology: *Romano-Germanic Philology. *Oriental Philology. *Belarusian Philology (majors in). *Russian Philology (majors in). *Slavic Philology. *Classical Philology.

Department of History: *Document Science (majors in). *History (majors in). *Museum Studies and Protection of Historical and Cultural Heritage (majors in)

Department of Philosophy and Social Studies: *Philosophy. *Sociology. *Psychology. *Social Communications.

Department of International Relations: *Linguistics and Cultural Studies. *International Law.

*International Relations. *Customs Affairs. *Global Economics. *Management (majors in).

Department of Law: *Jurisprudence. *Economic Law. *Politology (majors in).

Department of Liberal Education: *Modern Foreign Languages (majors in). *Social Work (majors in). *Culturology (majors in). *Design (majors in). *Applied Informatics (majors in).

*Management

Military Department: *Psychology. *Chemistry (majors in). *Geography (majors in).

*Jurisprudence. *Journalism (majors in). *International Relations. *Applied Cryptography.

SPECIALTIES OF THE IInd LEVEL OF HIGHER EDUCATION

Department of Mathematics and Mechanics: *Mathematics. *Mechanics.

Department of Applied Mathematics and Computer Science: *Applied Mathematics and Computer Science. *Mathematical and Programming Support of Information Security.

Department of Radiophysics and Computer Technologies: *Radiophysics. *Physical Electronics. *Methods and Systems of Information Protection, Information Security. *Hardware and Software Support of Information Security. *Quantum Radiophysics and Laser Beam Technologies.

Department of Physics: *Physics. *Condensed matter physics. *Photonics.

Department of Chemistry: *Chemistry.

Department of Biology: *Biology

Department of Geography: *Geography. *Geoecology.

Department of Economics: *Economic Theory. *Finance, Currency in Circulation and Credit. *Economics and Management of The National Economy. *Mathematical and Instrumental Methods in Economics.

Department of Philosophy and Social Studies: *Philosophy. *Psychology. *Sociology. *Philosophy and Social Anthropology.

Department of History: *Art Studies. *World History. *National History. *Archaeology. *Ethnography, Ethnology and Anthropology. *Historiography, Source Studies and Methods of Historical Research. *Museology, Conservation and Restoration of Historic and Cultural Objects. *Documentalistics, Document Science, Archival Science. *Cultural Heritage and Tourism. *Records Management and Archival Studies.

Department of Philology: *Theory and Methods of Teaching and Upbringing. *Slavic Languages. *Germanic Languages. *Romance Languages. *Language Theory. *Applied and Computational Linguistics. *Literatures of Foreign Countries. *Literary Studies. *Linguistics.

Department of Law: *Political Science. *Jurisprudence. *Legal Support of Public Authority. *Legal Regulation of Foreign Economic Activity.

Department of International Relations: *Theory of Language. *History of Foreign Affairs and Foreign Policy. *Jurisprudence. *World Economy. *Social and Economic Systems Management. *Innovative Management in Tourism.

Department of Liberal Education: *Germanic Languages. *Culturology. *Psychology. *Social and Economic Systems Management. *Counseling Psychology and Psycho-Correction.

Institute of Journalism: *Journalism.

ADDITIONAL EDUCATIONAL DIVISIONS

Department of Preparatory Program

Postgraduate Studies

PhD Studies

COST OF EDUCATION PER ACADEMIC YEAR

Department of Preparatory Program: \$2300

The Ist level of higher education: \$2700 - 3950

The IInd level of higher education (Master's degree program): \$2400 - 3950

Comment: 5 - 15% fee reduction of the above mentioned fee is provided for the citizens of Russia, Kazakhstan, Kyrgyzstan, and Tajikistan (according to the chosen specialty).

AMENITIES: foreign students are accommodated in apartments at the Residence Hall. Apartment unit (2 bedroom apartment) has a kitchen and a bathroom.

CAMPUS LIFE: the university offers sports training of all kinds. One can attend sports and fitness centers with swimming pools, workout rooms, open air sport grounds. Sport groups (24 sports) operate in BSU. Various student competitions take place annually. For example, year-round BSU student competition in 21 sports (arm wrestling, weightlifting, basketball, volleyball, indoor soccer, Greco-Roman wrestling, judo, table tennis, skiing, swimming, chess, orienteering, sports aerobics, cross-country race, karate, and athletics). Competitions, concerts, discos are organized at the Residence Halls and at departments premises. At the department of preparatory program foreign cuisine and dancing events take place each year.

BSU holds annually the International Student Theater Festival, Variety Song BSU Festival, the university Author Song Contest, Fashion and Photo Festival, Student Choir Forum etc.

It was founded in 1920. BNTU is the largest technical college in Republic of Belarus and it is recognized as the international scientific community. BNTU is the full member of the European Association of Universities, the International Association of Universities and is awarded the status of base technical college of CIS countries. Created at the beginning of the 20th century on the basis of polytechnical school, BNTU over time turned into the leading center of preparation of engineering specialists and architects. In 1947 in BNTU Jores Ivanovich Alfyorov, the Nobel prize winner in the field of physics of 2000 began the study. BNTU carries out preparation on 115 specialties I and II level of the higher education at 16 main faculties and at 5 institutes.

FACULTY

2100 – the number of teaching professors (210 Grand PhD, 850 PhD)

SPECIALTIES OF THE 1st LEVEL OF THE HIGHER EDUCATION

Department of Motor Transport: *Economics and Production Management (Motor Transport). *Transport Logistics (Motor Transport). *Hydropneumosystems of Mobile Machines and Engineering Machinery. *Internal Combustion Engines. Automobile. *Tractor Construction. *Multipurpose Tracked and Wheeled Vehicles (Design and Production). *Urban Electric Transport. *Technical Vehicle Exploitation (majors in). *Car Service. *Vehicle Transport Valuation Activity. *Transportation Organization and Management of Motor and Urban Transport. *Traffic Management.

Department of mining and engineering ecology: *Mining Machinery and Equipment (majors in). *Peat Production Technology and Equipment. *Development of Mineral Resources Deposits (majors in). *Ecological Management and Audit in Industry.

Department of Machine-building: *Machine-Building Technology. *Processing Equipment in Mechanical Engineering. *Automation of Technological Processes and Production (majors in). *Methods and Devices for Quality Control and Objects Condition Diagnostics. *Intelligent Devices, Machines and Production. *Integrated Sensor-Based System. *Computer Mechatronics. *Economics and Production Management (Machine Building).

Department of Mechanical Technology: *Mechanical Engineering and Materials Science. *Machines and the Technology of Materials Processing Using Pressure. *Welding Engineering Technology and Equipment. *Foundry Machines and Technology. *Metallurgical Production and Materials Processing (majors in). *Powder Metallurgy, Composite Materials, Coatings.

Department of marketing, management, business: *Economics and Business Management. *Business Administration. *Marketing. *Trade Equipment and Technologies. *Manufacturing of Exposition and Advertising Objects.

Department of Power Engineering: *Economics and Production Management (Energetics). *Electric Power Stations. *Electric Power Systems and Networks. *Electric Power Supply (according to the field of study). *Thermal Electric Power Stations. Industrial Heat-and-Power Engineering. *Steam Turbine Plants of Nuclear Electric Power Stations. *Automation and Management of Energy Processes. *Relay protection and Automatics.

Department of information technologies and robotics: *Information Technologies Software Support. *Information Systems and Technologies (majors in). *Automation of Technological Processes and Production (majors in). *Automated Systems of Data Processing. *Automatic Electric Drives. *Industrial Robots and Robotic Systems.

Department of Management Technologies and humanitarization: *Low Temperature Equipment. *Packaging Production (majors in). *Energy Efficient Technologies and Power Engineering Management. *Economics and Business Management. *Economics and Production Management (Mining Industry). *Management (majors in). *Customs Law.

Department of Engineering and pedagogics: *Vocational Training (majors in). *Vacuum and Compressor Equipment.

Department of power construction: *Economics and Production Management (Municipal and Water Industries). *Shipbuilding and Technical Exploitation of Water Transport. *Heat and Gas Supply, Ventilation and Air-Pollution Control. *Water Supply, Water Disposal Systems and Water Conservation. *Construction of Thermal and Nuclear Power Electric Stations. *Water Engineering.

Department of Architecture: *Architecture. *Architectural Design.

Department of Construction: *Economics and Production Management (Building). *Production of Building Manufactured Articles and Constructions. *Industrial and Civil Construction. *Expertise and Management of Real Estate.

Department of Instrument-making: *Management (majors in). *Economics and Production Management (Instrument Making). *Mechanical and Electromechanical Equipment and Apparatus. *Micro- and Nanosystem Equipment. *Biotechnological and Medical Apparatus and Systems. *Technology of Materials and Components in Electronic Engineering. *Procedure and Equipment for Jewelry Manufacture. *Optical Electronic and Laser Devices and Systems. *Information-Measuring Equipment. *Technical Safety Ensuring. *Metrology, Standartization and Certification (majors in). *Methods and Devices for Quality Control and Objects Condition Diagnostics.

Department of Road-Transport Sector Communications: *Economics and Production Management (Road-Transport Sector). *Jack Transport, Construction, Road Machines and Equipment (majors in). *Geodesy. *Highways. *Bridges, Transport Tunnels and Underground Railways.

Department of Sports technologies: *Technical Support of Sports Objects Exploitation.

SPECIALTIES OF THE IInd LEVEL OF THE HIGHER EDUCATION

Department of Motor Transport: *Economics and Management of The National Economy. *Economics and Organization of Production. *Mechanical Engineering and Engineering Science. *Transport Studies.

Department of mining and engineering ecology: *Ecology. *Mining Machinery. *Geotechnology (underground, surface and constructional).

Department of Machine-building: *Economics and Organization of Production. *Mechanical Engineering and Engineering Science. *Equipment and Methods of Environment, Substances, *Materials and Products Control. *Automation and Management of Technological Processes and Production.

Department of Mechanical Technology: *Processing of Constructional Materials in Mechanical Engineering. *Metallurgy

Department of marketing, management, business: *World Economy. Economics and Management of The National Economy.

Department of Power Engineering: *Economics and Organization of Production. *Power Engineering.

Department of information technologies and robotics: *Systems Analysis, Information Control and Processing. *Mathematical Modelling, Numerical Techniques and Program Complexes. *Automation and Management of Technological Processes and Production.

Department of Management Technologies and humanitarization: *Economics and Management of The National Economy. *Power Systems and Complexes. *Innovative Management.

Department of Engineering and pedagogics: *Theory and Methods of Vocational Education. *Processing of Constructional Materials in Mechanical Engineering.

Department of power construction: *Transport Studies. *Construction. *Economics and Organization of Production.

Department of Architecture: *Architecture.

Department of Construction: *Economics and Organization of Production. *Economics and Management of The National Economy. *Construction.

Department of Instrument-making: *Economics and Management of The National Economy. *Economics and Organization of Production. *Instrument-Making Technology, Metrology and Information Measuring *Devices and Systems. *Optical and Optical-Electronic Devices and Systems. *Medical Devices, Systems and Products. *Instrument-Making Technology. *Solid-State Electronics, Radio-Electronic Components, Micro-and Nanoelectronics, Devices Based on Quantum Effects. *Production Quality Management and Standardization. *Metrology and Metrological Maintenance.

Department of Road-Transport Sector Communications: *Economics and Organization of Production. *Transport, Mining and Construction Machinery Manufacturing. *Construction. *Mechanical Engineering and Engineering Science. *Transport Studies.

International institute of distant education: *Economics and Management of The National Economy. *Systems Analysis, Information Control and Processing.

ADDITIONAL EDUCATIONAL DIVISIONS

Department of Preparatory Program

Postgraduate Studies

COST OF EDUCATION PER ACADEMIC YEAR

Department of Preparatory Program: \$1500

The Ist level of the higher education: \$2100 - 2800

The IInd level of the higher education (Master`s degree program): \$2350 - 4200

Postgraduate Studies: \$2000 - 2800

PhD Studies: \$3500

AMENITIES: to foreign students are provided 2nd or 3rd bed-rooms in a hostel of block type.

CAMPUS LIFE: there is a stadium, playgrounds, the sports base with the swimming pool, classes in different types of sports for different sports activities at university. The BNTU international student's center, Cultural and educational and the BNTU historical and educational center hold numerous events.

It was founded in 1914. BSPU is one of the oldest higher education institutions in the country. Thanks to historically developed traditions, academism and openness are combined here. In 98 years of the full and rich history the university got high reputation, became a leading higher educational institution of a pedagogical profile in a national education system of Republic of Belarus. Prominent scientists and the teachers, known schools of sciences and the centers, high level of ethics of the professional and interpersonal relations, continuity of traditions and possibility of transfer of wide scientific, pedagogical and life experience to new generations – all this BSPU today.

FACULTY

1053 – the number of teaching professors (62 Grand PhD, 427 PhD)

SPECIALTIES OF THE 1st LEVEL OF THE HIGHER EDUCATION

Department of preschool education: *Preschool Education.

Department of primary education: *Primary Education.

Department of history: *History. *Sociopolitical Disciplines.

Department of the Belarusian and Russian philology: *Belarusian Language and Literature. *Belarusian Language and Literature. *Foreign language (English). *Russian Language and Literature. *Russian Language and Literature. *Foreign language (Lithuanian). *Russian Language and Literature. *Foreign language (Chinese).

Department of Natural sciences: *Biology and geography. *Biology and Chemistry.

Department of mathematics: *Mathematics and informatics.

Department of physics: *Physics and Technical Creative Work. *Physics and Informatics.

Department of esthetic education: *Fine Arts, plotting and national art crafts. *Fine Arts art and computer graphics.

Department of physical training: *Physical Training. *Health, Fitness. *Tourist and Recreational Activity. *Health-Improving and Adaptive Physical Training. *Physical Training (medical). *Sports and Educational Activities (sports direction). *Sport and Tourism Activity (management in tourism).

Department of additional education: *Logopedics. *Deaf-and-Dumb Pedagogy. *Tiflopedagogics. *Oligophrenopedagogics.

Department of social and pedagogical technologies: *Social Pedagogy. *Social work.

Department of psychology: *Psychology (with specialization: social psychology). *Psychology (with specialization: pedagogical psychology). *Psychology (with specialization psychology of business activity). *Practical Psychology. *Psychology (with specialization: psychology of the family relations).

SPECIALTIES OF THE 2nd LEVEL OF THE HIGHER EDUCATION

Department of preschool education: *Theory and Methodology of Preschool Education.

Department of all-university chair of pedagogics: *Theory and Methods of Teaching and Upbringing (by fields and levels of education). *General Pedagogy Studies. *History of Pedagogy and Education. *Theory and Methods of Vocational Education.

Department of physics: *Physics.

Department of psychology: *Psychology.

Department of history: *National History. *World History.

Department of the Belarusian and Russian philology: *Literature Studies. *Linguistics.

Department of additional education: *Correctional Pedagogy.

Department of Natural sciences: *Biology. *Geography. *Chemistry.

Department of mathematics: *Mathematics. *Physics.

Department of physical training: *Theory and Methodology of Physical Education, *Sport Training, *Health-Improving and Adaptive Physical Culture.

ADDITIONAL EDUCATIONAL DIVISIONS

Department of Preparatory Program

Postgraduate Studies

COST OF EDUCATION PER ACADEMIC YEAR

Department of Preparatory Program: \$2000

Courses of Russian language: \$1200

The Ist level of the higher education: \$2609 - 3322 (Department of esthetic education), \$2550 - 2883 (others)

The IInd level of the higher education (Master`s degree program): \$3500 - 5600 (for all term of training)

AMENITIES: to foreign students are provided rooms in hostels which have rooms for self-training and the organization of leisure, library and reading rooms, sanatorium dispensary, training and tennis halls.

CAMPUS LIFE: BSPU has the effective system of additional work including cultural, mass and sports actions, creative youth projects, creative associations, volunteer clubs. Different sports teams and sports sections are functioning at the university.

Belarusian State Technological University was founded on 1930. It is one of the largest dynamically-developing multi-profile educational and scientific centers in the Republic of Belarus with a wide scope of activities, training highly competitive specialists. It is also one of the oldest universities in the Republic of Belarus. Over 70% of university academic staff consists of specialists with doctoral and post-graduates degrees. In 2005 the University obtained a status of a leading university of the Republic of Belarus, especially in such areas as forestry, chemical technologies and publishing and printing studies.

FACULTY

651 – the number of teaching professors (59 Grand PhD, 399 PhD)

SPECIALTIES OF THE Ist LEVEL OF HIGHER EDUCATION

Forestry Department: *Forestry. *Landscape Architecture. *Tourism and Nature Management.

Forestry Technologies and Technical Processes: *Professional Training (Woodworking). *Forestry Complex Machines and Equipment. *Energy Efficient Technologies and Power Engineering Management. *Forestry Engineering. *Technology of Woodworking Production.

Organic Substances Technology Department: *Chemical Technology of Organic Substances, Materials and Goods. *Chemical Technology of Wood Processing. *Biotechnology. *Technology of Medicinal Drugs. *Physical-Chemical Methods and Devices for Goods Quality Control. *Bioecology.

Chemical Technology and Engineering Faculty: *Design and Production of Composite Materials Goods. *Machines and Apparatus for Chemical Production and Building Materials Enterprises. *Chemical Technology of Inorganic Substances, Materials and Goods. *Technology of Electrochemical Production. *Automation of Technological Processes and Production (majors in). *Environmental Protection and Rational Use of Natural Resources.

Economic Engineering Faculty: *Economics and Business Management. *Accounting, Analysis and Audit (majors in). *Management (majors in). *Marketing.

Publishing and Printing Department: *Printing Industry Machines and Data Processing Systems. *Information Systems and Technologies (majors in). *Publishing. *Technology of Printing Industry.

SPECIALTIES OF THE IInd LEVEL OF HIGHER EDUCATION

Forestry Department: *Forestry crop cultures, breeding and seed production. *Forest management and forest taxation. *Forest Science and Forestry, Forest Fires and Methods of Prevention. *Plant Protection. *Landscaping of Residential Areas.

Forestry Technologies and Technical Processes: *Power systems and complexes. *Wood science, technology, and woodworking equipment. *Forestry Machinery and Forest Exploitation Technology.

Organic Substances Technology Department: *Technology of processing of polymeric materials and composites. *Chemical technologies of fuels and high-powered substances. *Technology and equipment of chemical reprocessing of wood biomass; chemistry of wood materials. *Technology of organic materials. *Biotechnology. *Technology of fats, essential oils, perfumes and cosmetic products. *Devices and methods of control of the environment, substances, materials and products.

Chemical Technologies and Engineering Department: *Technology and equipment for the production of semiconductors, materials and devices of electronic equipment. *Technologies of nonorganic materials. *Technology of silicate and refractory nonmetallic materials. *Electrochemical production technology and Corrosion Prevention. *Automation and control of technological processes and production (majors in). *Geoecology. *Chemical technologies processes and equipment. *Ecology. *Equipment, power units and processes (by industries).

Organic Substances Technologies Department: *Ecology.

Economic Engineering Department: *Theory of Economics. *Global Economics. *Economics and national economy. *Accounting and statistics. *Real Estate Management. *Management of social and economic systems.

Publishing and Printing Department: *Journalism. *Theoretical basics of informational systems. *Equipment, power units and processes (by industries). *System analysis, management and information processing (by industries).

ADDITIONAL EDUCATIONAL DIVISIONS

Department of Preparatory Program

Postgraduate Studies

COST OF EDUCATION PER ACADEMIC YEAR

Department of Preparatory Program: \$1600

The Ist level of higher education: \$2600

The IInd level of higher education (Master's degree program): \$2960 - 3000

AMENITIES: students live in the Residence Hall, which consists of comfortable apartment units (each room can accommodate 2 to 3 person). Each apartment unit is provided with shared bathrooms and showers. There are kitchens on every level of an apartment unit. Student Campus offer break rooms and two dining areas with hot meals. All apartment buildings of the Residence Hall are located within a walking distance from the University campus and right in the heart of the city. Students are provided with study rooms, as well as sports facilities to play table tennis, billiard, to participate in sports competitions. All rooms have an access to Internet. Students have an opportunity to improve their health in the medical centre of the University.

CAMPUS LIFE: students play different kinds of sports that offered by a health improvement association of the University. These sports include volleyball, soccer, basketball, tennis, body-building, combat fighting sports, swimming, etc. Needless to say, that an ultramodern sports complex with well equipped gyms, stadiums, sports fields with an artificial synthetic grass cover, ski facilities, a sports club is provided at their disposal. Students are engaged in the work of folk groups, student theater, a folk instruments music orchestra, they also participate in a variety of art competitions and festivals as well.

e-mail: oms@bsuir.by

It was founded in 1964. BSUIRE is the leading university Republic of Belarus in the field of information technologies, communications and radio electronics, the base organization of the participating states of the CIS on the higher education in the field of informatics and radio electronics. The university has the status of the scientific organization.

At university the quality management system which is meeting the requirements of the DIN EN ISO 9001:2008 standard is introduced. In 2011 to university received the Award of the Government of Republic of Belarus for achievements in the field of quality. BSUIRE became first in Belarus the incubator of business projects in the sphere of information technologies. BSUIR is the only educational institution in Belarus which received the IBM award. BSUIR students are the winners of the prestigious World Cup ACM International Collegiate Programming Contest.

Training is conducted in Russian and English languages. In educational process the innovative educational technologies are applied.

Dynamic scientific research is carried out at the university. There are 47 research laboratories, 9 research groups and 11 research centers, Students' Scientific Society, 32 joint trainings, research and industrial laboratories, 7 certification training centers of the world leading companies: Center for Educational Programs Microsoft, Educational Center National Instruments, Technology Competence Center IBM, the Branch of Networking Academy Cisco, Academic Center SAP for cooperation programs with universities "University Alliance", Android Software Center, Educational and Research Center "INTES", international scientific conferences, programs, grants of the leading IT companies in the world. BSUIR cooperates with more than 100 research organizations and educational institutions from 30 countries.

There is also an Information and Educational Center of Electronic Resources and Services which is of great help if you want to get access to the databases of the world's leading providers of information. You can obtain the necessary information through the virtual reading room of the National Library of Belarus. The local computer network consists of more than 4000 computers with WI-FI in order to connect to the network in educational buildings.

FACULTY

1053 – the number of teaching professors (62 Grand PhD, 273 PhD)

SPECIALTIES OF THE 1st LEVEL OF THE HIGHER EDUCATION

Department of computer design: *Electro-Optical Systems and Technologies. *Modeling and Computer Design of Radioelectronic Means. *Design and Production of Radioelectronic Means. *Medical Electronics. *Electronic Computing Facilities. *Engineering and Psychological Support of Information Technologies (*the training is conducted in Russian and in English*). *Programmable Mobile Systems. *Electronic Security Systems. *Information Systems and Technologies (Industrial Safety Ensuring).

Department of information technologies and management: *Computer-Aided Systems of information processing (in Russian and English languages). *Information Systems and Technologies (Management Activity). *Artificial Intelligence. *Industrial electronics.

Department of Radio engineering and electronics: *Micro- and Nanoelectronic Technologies and Systems. *Radio Engineering (majors in): Programmable Radioelectronic Devices, Digital Radio Communication Technology. *Radioelectronic Systems. *Radioinformatics. *Quantum Information Systems. *Electronic Data Protective Measures. *Nanotechnologies and Nanomaterials in Electronics. *Electronic and Information Management Systems of Physical Devices.

Department of computer systems and networks: *Computing Systems and Networks. *Software Support of information technologies. **Informatics and Programming Technologies.

Department of telecommunications: *Infocommunication Systems (Standardization, Certification, and Parameters Control). *Infocommunication Technologies (majors in): Telecommunication Systems, Infocommunications Networks, Digital Television and Radio Broadcast, Multimedia Information Distribution Systems, Laser Information Measuring Systems, Infocommunication Technologies (infocommunication networks) (*the training is conducted in Russian and in English*). *Data Protection in Telecommunications (in Russian and English languages).

Department of Engineering economics: *Economics of Electronic Business. *Electronic Marketing. *Information Systems and Technologies in Economics. *Information Systems and Technologies in logistics.

Military Department: *The information and communication technology (systems of telecommunications of a special purpose). *Radio Engineering

Department of correspondence study: *Radio Engineering (Programmable Radioelectronic Devices). *Modeling and computer design of radio-electronic means. *Design and production of radio-electronic means. *Medical electronics. *Economics and Production Management (radio-electronic and information services). *Information technologies and management in technical systems. *Computers, systems and networks. *The information and communication of technology (multichannel systems of telecommunications; networks of telecommunications; systems of a radio communication, broadcasting and television). *Micro- and Nanosystem technologies and systems. *Information Systems and Technologies in Economics. *Electronic computing means. *Engineering and Psychological Support of Information Technologies. *Electronic Security Systems.

Department of continuous and distance study: *Automated Systems of Data Processing. *Informatics and technologies of programming. *Software Support of information technologies. *Artificial Intelligence. *Information Systems and Technologies in Economics. *Electronic Marketing. *Engineering and Psychological Support of Information Technologies.

SPECIALTIES OF THE IInd LEVEL OF THE HIGHER EDUCATION

*Work psychology, engineering psychology, ergonomics. *Economics and Management of The National Economy. *Mathematical and Instrumental Methods in Economics. *Economics and Organization of Production. *Radiophysics. *Applied Mathematics and Informatics. *Foundations of Information Science. *Geo-ecology. *Instrument-Making Technology, Metrology and Information Measuring Devices and Systems. *Optical and Optical-Electronic Devices and Systems. *Medical Devices, Systems and Products. *Instrument-Making Technology. *Devices and Methods of Image and Sound Transformation. *Antennas, Microwave Devices and their Technology. *Radio Engineering, Including Radio Navigation, Radiolocation and Television Systems and Devices. *Design of Electronic Systems in Computer Technology. *Elements and Devices of Computer Facilities and Control Systems. *Systems Analysis, Information Control and Processing (by industries). *Computers and Computer Systems. *Mathematical Modelling, Numerical Techniques and Program Complexes. *Mathematical and Software of Computers, Systems and Computer Networks. *Solid-State Electronics, Radioelectronic Components, Micro- and Nanoelectronics, Devices based on Quantum Mechanics. *Technology and Equipment for Production of Semiconductors, Materials and Electronic Engineering Devices. *Nanotechnologies and Nanomaterials in Electronics. *Systems, Networks and Facilities of Telecommunication. *Telecommunication Systems and Computer Networks (the training is conducted in Russian and in English). *Automation and Management of Technological Processes and Production (by industries). *Occupational Safety. *Emergency Prevention and Response. *Methods and Systems of Data Protection, Information Security (in Russian and English languages). *Hardware and Software Technical Support of Information Security.

It was founded in 1933. BSEU today is one of the largest universities in Belarus training specialists for all branches of economics and all types of the organizations. BSEU prepares experts in economics and management, finance and banking, accounting and statistics, commercial activity, the international economic relations, jurisprudence, communicative technologies in business, marketing, logistics, economic law, economics and administration in tourism, work economics, economics of environmental management, advertizing and pricing. The university consist of 13 faculties, 61 chairs, 6 research centers, library, scientific and computer laboratories, language laboratories, the campus with 8 student's hostels, sports and trade complexes, sanatorium dispensary and health-improvement base in picturesque pine forest on the bank of a lake.

FACULTY

1402 – the number of teaching professors (122 Grand PhD, 611 PhD)

SPECIALTIES OF THE 1st LEVEL OF THE HIGHER EDUCATION

School of International Business Communication: *Language Maintenance of Intercultural Communication.

Department of Social Humanitarian Education: *Psychology. *Sociology. *Politology (majors in).

Department of Law: *Jurisprudence.

Department of International Economic Relations: *Economic Theory. *Economics. *Global Economics. *Business Administration.

Department of Finance and Banking: *Finance and Credit. *Accounting, Analysis and Audit (in Banks).

Department of Accounting and Economics: *Accounting, Analysis and Audit (majors in). *Statistics.

Department of Management: *Economics and Business Management. *Economic Informatics. *Public Administration. *Management (majors in). *Economic Cybernetics (majors in).

Department of Economics and Trade Managements: *Merchandising and Goods Expertise. *Commercial Activity.

Higher School of Tourism: *Economics and Administration in Tourism.

The School of Marketing: *Marketing. *Logistics.

SPECIALTIES OF THE IInd LEVEL OF THE HIGHER EDUCATION

The educational programs forming knowledge and skills of scientific, pedagogical and research work:

*Philosophy. *Politology. *Jurisprudence. *Economic Theory. *World Economy. *Finance, Currency in Circulation and Credit. *Economics and Management of The National Economy. *Accounting and Statistics. *Technology and Commodity Research of Food Products, Functional, Special Purpose, and Food Chain Products. *Merchandizing, Expertise and Safety of Nonfoods and Raw Materials. *Mathematical and Instrumental Methods in Economics.

Educational programs with profound training of specialists:

*Economics. *Global Economics. *Finance and Credit. *Economics and Business Management. *Statistics. *Accounting, Analysis and Audit. *Merchandising and Goods Expertise. *Commercial Activity. *Economic Informatics. *Economics and Administration in Tourism. *Marketing. *Logistics. *Business Management. *International Economic Relations and Trade Policy (in English).

ADDITIONAL EDUCATIONAL DIVISIONS

Brest State Technical University is a largest technical academic establishment in the western part of Belarus. It was founded in 1966 and until now it had graduated more than 43 000 specialists since the day of its establishment. The University actively participates in international programs in the area of education, as well as scientific and technical research, such as “TEMPUS” program (projects called “Transferring of technologies from institutes of higher education to industries”, “Improvement of university structures for the purpose of cooperation with industries”), Program of the Baltic region sea (projects QUICK and PRESTO), “Erasmus Mundus” program (projects EWENT и TEMPO), IAESTE program, the Program of the “Robert Bosch Stiftung” Fund (Germany) in the area of development and reorganization of educational system.

Brest State Technical University is a member of the Association of European faculties of civil engineering with participating faculties of civil engineering of non European countries (AECEF), and also is a part of an association called “The Academy of the Baltic Sea”. The University continuously takes part in international innovative exhibits in Hannover and Saint-Petersburg. The University not only conducts research in IT technology, but also in architecture, construction, and international conferences and seminars in the field of electronics, architecture, construction, ecology, economics, mechanical engineering.

FACULTY

511 – the number of teaching professors (19 Grand PhD, 178 PhD)

SPECIALTIES OF THE Ist LEVEL OF HIGHER EDUCATION

Economics Department: *Global Economics. *Finance and Credit. *Economics and Business Management. *Accounting, Analysis and Audit. *Commercial Activity. *Marketing. *Economics and Production Management (majors in).

Water Supply and Hydrotechnology Department: *Heat and Gas Supply, Ventilation and Air-Pollution Control. *Water Supply, Water Disposal Systems and Water Conservation. *Melioration and Water Industry. *Environmental activities (majors in).

Mechanical-Engineering Department: *Machine-Building Technology. *Processing Equipment in Mechanical Engineering. *Food Industry Machines and Equipment. *Technical Vehicle Exploitation. *Car Service. *Automation of Technological Processes and Production (majors in).

Electronic and Information Systems Department: *Industrial Electronics. *Computing Machines, Systems and Networks. *Artificial Intelligence. *Automated Systems of Data Processing.

Civil Engineering Department: *Architecture. *Production of Building Manufactured Articles and Constructions. *Industrial and Civil Construction. *Expertise and Management of Real Estate. *Highways.

SPECIALTIES OF THE IInd LEVEL OF HIGHER EDUCATION

Economics Department: *Economics and Management of the National Economy.

Water Supply and Hydrotechnology Department: *Reclamation, restoration and protection of land.

Mechanical-engineering Department: *Mechanical Engineering and Machine Science. *Automation and control of technological processes and production (majors in).

Electronic Information Systems Department: *Systems Analysis, Management and Information Processing (majors in). *Mathematical Modeling, Calculus of Approximations and Program Systems.

Civil Engineering Department: *Architecture. *Civil Engineering.

VITEBSK STATE UNIVERSITY
NAMED AFTER P.M. MASHEROV

Address: 33 Moskovskiy Ave.,
210038, Vitebsk, Belarus

Phone: +375 212 21 99 16

Fax: +375 212 21 49 59

http:// www.vsu.by

e-mail: vsu@vsu.by

The university was founded in 1910. Vitebsk State University is one of the oldest educational institutions of the Republic of Belarus. In 2011 the department for foreign citizens was established. 54 association agreements have been signed with foreign educational and scientific institutions. University scientists are involved in the following organizations: the International Higher Education Academy of Sciences, the International Academy of Social and Educational Sciences, the International Academy of Technical Education, International Pedagogical Academy, the International Scientific Council on History of Education and Pedagogy, the International Association "National Pedagogy", the American Mathematical Society, the International Association of Applied Mathematics and Mechanics, European Mechanics Society, the European Society of Biomechanics, European Mycological Association, the International Academy of Ecology, International Eurasian Academy, Petrovsky Academy of Sciences and Arts, the International Association of Specialists in Belarusian Philology. The University actively develops cooperation with China, Germany, Sweden, Canada, Poland, Russia, Ukraine, Moldova, Kazakhstan, Latvia, Lithuania.

FACULTY:

517 – the number of teaching professors (22 Grand PhD, 209 PhD)

SPECIALTIES OF THE Ist LEVEL OF HIGHER EDUCATION

Department of Pedagogy: *Preschool Education. *Primary Education.

Department of History: *Theology. *Library Science and Bibliography (majors in). *Museum Studies and Protection of Historical and Cultural Heritage (majors in).

Department of Biology: *Biology (majors in). *Geography (majors in). *Bioecology.

Department of Mathematics: *Applied Mathematics (majors in).

Department of Art and Graphics: *Decorative and Applied Arts (majors in).

*Design (majors in)

Department of Physical Culture and Sports: *Physical Education.

Department of Social Pedagogy and Psychology: *Social Pedagogy. *Psychology. *Social Work (majors in).

Department of Philology: *Russian Philology (majors in). *Russian Language and Literature. *Romano-Germanic Philology.

Department of Physics: *Physics (majors in).

Department of Law: *Jurisprudence.

SPECIALTIES OF THE IInd LEVEL OF HIGHER EDUCATION

Department of Pedagogy: *Theory and Methods of Teaching and Upbringing (in the field of: Educational Work, Music, Foreign Language, Russian Language, Correctional work). *Pedagogical Studies, History of Pedagogy and Education.

Department of Physical Culture and Sports: *Theory and Methods of Physical Education, Sports Training, Health-Improving and Adaptive Physical Education.

Department of Philology: *Slavic Languages. *Comparative Historical, Typological, and Contrastive Linguistics. *Literary Studies.

Department of Belarusian Philology and Culture: *Literary Studies. *Linguistics.

Department of History: *World History. *National History.

Department of Biology: *Biology. *Theory and Methods of Teaching and Upbringing (in the field of Chemistry).

Department of Mathematics: *Mathematics. *Theory and Methods of Teaching and Upbringing (in the field of Mathematics). *Theory and Methods of Teaching and Upbringing (in the field of Informatics).

Department of Physics: *Physics. *Mathematical Modelling, Numerical Methods and Programme Systems.

Department of Art and Graphics: *Theory and Methods of Teaching and Upbringing (in the fields of: Fine Arts, Drawing, Crafts). *Art Studies.

Department of Social Pedagogy and Psychology: *Psychology.

ADDITIONAL EDUCATIONAL DIVISIONS

Department of Preparatory Program

Postgraduate Studies

COST OF EDUCATION PER ACADEMIC YEAR:

Department of Preparatory Program: \$1900

The Ist level of higher education: \$2200 - 2500

The IInd level of higher education (Master's degree program): \$2000

AMENITIES: foreign students are accommodated in 2 bedroom apartments at the Residence Hall.

CAMPUS LIFE: creative hobby groups operate at the university: the Studio of Variety Songs, Drama Club, an Intellectual Games club, School of Elocution, Puppet Theater, KVN league (stand up comedy groups), Tour and Local History Club, University Dance Group, sports clubs in different sports (basketball, indoor soccer, football, table tennis, drafts, chess, darts, athletics, weight lifting).

The University was established in 1965 in order to train qualified specialists for industries in areas of mechanical engineering, light industrial centers of standardization and metrology, research laboratories, etc. In 2012 it was accredited a status of a scientific organization. The University actively carries through scientific research. It also organized a Republican innovative unitary enterprise called “Science and Technology Park of the Vitebsk State Technological University”. The University has been widely recognized all over the world. At the present time it has established agreements on direct inter educational cooperation with about 32 educational and scientific organizations of the Russian Federation, Ukraine, Estonia, Uzbekistan, Latvia, Poland, Switzerland, Portugal and several other countries.

FACULTY

322 – the number of teaching professors (15 Grand PhD, 128 PhD)

SPECIALTIES OF THE 1st LEVEL OF HIGHER EDUCATION

Art and Technological Department: *Design (major in). *Textile Manufacturing (technology and management; technology and design processes).

Economy Department: *Finances and Credit. *Economics and Business Management. *Accounting, Analysis and Audit (business and non-profit organizations). *Commercial Activity. *Management (industrial). *Marketing. *Economics and Production Management (light industries).

Design and Technology Department: *Merchandising and Goods Expertise. *Metrology, Standardization and Certification (light industries). *Design and Technology of Sewn Articles. *Design and Technology of Leather Articles. *Metrology, Standardization and Certification (majors in).

Machine-Building Technology Department: *Machine-Building Technology. *Processing Equipment in Mechanical Engineering. *Equipment and Technologies of Highly Effective Processes of Materials Processing. *Machines and equipment of light textile industry and utility maintenance. *Automation of Technological Processes and Production (light industry).

SPECIALTIES OF THE 2nd LEVEL OF HIGHER EDUCATION

Economics Department: *Economics and National Economy Management. *Management in social and economic systems. *Economics and Production Management.

Technological Equipment of Machine-Building Production Department: *Machine-Building Technologies and Engineering Science.

Design Technologies Department: *Technologies and Primary Reprocessing of textile materials and raw feedstock. *Technology of Sewn Articles. *Technology of footwear and leather fancy goods. *Automation and control of technological processes and production (by industries).

Design-Engineering Department: *Technology of Sewn Articles. *Technologies of Footwear Production and Leather Fancy Goods.

Mechanical and Technological Department: *Automation and control of technological processes and production (majors in). *Machinery, Equipment and Processes (by industries).

ADDITIONAL EDUCATIONAL DIVISIONS

Department of Preparatory Program
PhD Studies

COST OF EDUCATION PER ACADEMIC YEAR

Department of Preparatory Program: \$1500

The Ist level of higher education: \$2200; by correspondence – \$900

The IInd level of higher education (Master's degree program): \$1000 - 2500

AMENITIES: foreign students are provided with rooms at the Residence Hall of the University.

CAMPUS LIFE: foreign students actively participate in the sports life of the University. They take part in extra colloquium indoor soccer and basketball competitions; they actively engage in the university sports teams in the variety of sports.

It was founded in 1968. The University continues long traditions of great Belarusian enlighteners. By the results of students' research work the University has been listed among the leading educational establishments of the Republic of Belarus. About 80 % of students' research works annually presented at the National contest is awarded with various categories.

Polotsk State University has agreements of cooperation in the sphere of education, science and culture with Technical University of Munich and Mannheim University of Applied Sciences (Germany), KTH Royal Institute of Technology (Stockholm), Vaxjo University (Sweden), The University of Genoa (Italy). The agreements include exchange of lecturers and students for studies and research training.

FACULTY

502 – the number of teaching professors (18 Grand PhD, 157 PhD)

SPECIALTIES OF THE 1st LEVEL OF THE HIGHER EDUCATION

Faculty of History and Philology: *English Language. Belorussian Language and Literature, German and French Languages. *History. *Roman and German Philology (English Philology, German Philology, French Philology). *German and English Languages. *French and English Languages.

Faculty of Finance and Economics: *Management, *Finance and Credits. *Business Accounting, Analysis and Audit. *Economics and Business Administration. *Logistics.

Faculty of Law: *Jurisprudence.

Faculty of Physical Training Education: *Physical Training. *Tourism and hospitality. *Technology. Informatics. *Applied Psychology. Foreign Language. *Preschool Education. The English Language.

Faculty of Machine Building: *Machine-building Technology. *Technological Equipment in the Machine-building Industry. *Equipment and Technology of Welding Engineering. *Transport Engineering.

Faculty of Engineering Technology: *Chemical Technology of Natural Energy Carriers and Carbonic Materials. *Machines and Apparatus of Chemical Productions and Enterprises of Building Materials. *Design, Construction and Maintenance of Gas and Oil Pipelines and Storages. *Heat and Gas Supply, Ventilation and Air Protection. *Water Supply, Water Utilisation, Water and Sewage Treatment.

Radio Engineering Faculty: *Radio Engineering. *Modelling and Computer Design of Radio-electronic Devices. *Industrial Electronics. *Power supply.

Faculty of Information Technologies: *Software Support of Information Technologies. *Computers, systems and wires. *Computer security.

Faculty of Civil Engineering: *Design. *Architecture. *Civil and Industrial Engineering. *Expertise and Real Estate Management. *Motor Roads.

Faculty of Geodesy: *Geodesy. *Geography (Geographic Information Systems).

SPECIALTIES OF THE IInd LEVEL OF THE HIGHER EDUCATION

Faculty of History and Philology: *Theory and Methods of Teaching and Upbringing. *History of Belarus.

Faculty of Finance and Economics: *Economics and Management of the National Economy. *Accounting and Statistics.

Faculty of Law: *Jurisprudence.

Faculty of Physical Training Education: *Theory and Methods of Physical Education and Sport Training.

Faculty of Machine Building: *Mechanical Engineering and Engineering Science. *Processing of Constructional Materials in Mechanical Engineering.

Faculty of Engineering Technology: *Processes and Apparatus of Chemical Technologies. *Chemical Technology of Fuels and High-energy Substances. * Occupational Safety. *Construction. *Construction and Operation of Petroleum Pipelines and Warehouses.

Radio Engineering Faculty: *Electrophysics, electrophysical installations. *Systems, Networks and Facilities of Telecommunication.

Faculty of Information Technologies: *Mathematical Modelling, Numerical Techniques and Program Complexes.

Faculty of Geodesy: *Mining and Petroleum Geology, Geophysics, Mine Surveying and Subsurface Geometry, Geodesy.

Faculty of Civil Engineering: *Construction.

ADDITIONAL EDUCATIONAL DIVISIONS

Department of Preparatory Program

Postgraduate Studies

COST OF EDUCATION PER ACADEMIC YEAR

Department of Preparatory Program: \$1500

The Ist level of the higher education: \$2000

The IInd level of the higher education (Master's degree program): \$2700

AMENITIES: foreign students are provided with double and quadruple rooms in the University hall of residence.

CAMPUS LIFE: sports sections on volleyball, sambo, track and field athletics, football, orienteering, table tennis, arm-wrestling, sport aerobics, overall fitness are available for students. Concerts, festivities and other cultural and entertaining events are organized in the University.

Belarusian State University of Transport was established in 1953. It is located in Gomel, which is one of the most beautiful cities of Polesye region in Belarus. The University is one of the leading establishments in the area of science and research that pertain to such industries as transport and a field of construction complexes of Belarus. The University successfully trained and graduated many talented engineers, scientists, heads of ministry departments, railway managers, heads of higher institutions, higher institutions of scientific research, deputies of Parliament of Belarus and local authorities, businessmen, academic staff of educational institutions, etc. The academic structure of the University includes such branches as the Department of Professional and Retraining and Scientific Research Institute of Railway Transport. The University is integrated into international educational system and implements latest educational methods, which are based on an innovative scientific research platform.

FACULTY

439 – the number of teaching professors (12 Grand PhD, 134 PhD)

SPECIALTIES OF THE 1st LEVEL OF HIGHER EDUCATION INTERNATIONAL STUDENTS DEPARTMENT

- *Automatics, Telemechanics and Communication of Railway Vehicles.
- *Highways.
- *Architecture.
- *Accounting, Analysis and Audit (majors in).
- *Water Supply, Water Disposal Systems and Water Conservation.
- *Commercial Activity.
- *Equipment and Technologies of Highly Effective Processes of Materials Processing.
- *Urban Electric Transport.
- *Transportation Organization and Management of Motor and Urban Transport.
- *Traffic Management.
- *Transportation Organization and Management of the Railway Vehicles.
- *Transportation Organization and Management of the River Transport.
- *Rolling Stocks of Railway Vehicles.
- *Production of Building Manufactured Articles and Constructions.
- *Industrial and Civil Construction.
- *Railways Construction, Track and Track Facilities.
- *Technical Exploitation of Handling, Travelling, Road-Construction Machinery and Equipment.
- *Technical Exploitation of Ship Power Plants.
- *Logistics.
- *Traction Units of Railway Vehicles (majors in).
- *Economics and Production Management (majors in).

*Expertise and Management of Real Estate.

SPECIALTIES OF THE IInd LEVEL OF HIGHER EDUCATION

- *Economics and Management of National Economy
- *Accounting and Statistics.
- *Processing of constructional materials in mechanical engineering.
- *Transport.
- *Systems, networks and telecommunications devices.
- *Construction
- *Architecture.

e-mail: mail@gsu.by

The university was founded in 1930. Gomel State University named after Frantsisk Skorina is one of the oldest universities in Belarus. It has been operating for more than 80 years and provided academic training for more than 65 thousand highly qualified specialists. Franco-Belarusian Institute of Management has been operating at the university for 17 years. More than 500 specialists took their degree acknowledged in Belarus and in France (within joint academic program).

The university conducts fundamental, exploratory and applied researches in 15 major scientific fields, cooperates with major foreign research and education centers. Gomel State University has an excellent sports tradition and the university team represents Belarus honourably at the international competitions of the highest rank.

FACULTY:

652 – the number of teaching professors (41 Grand PhD, 247 PhD)

SPECIALTIES OF THE 1st LEVEL OF HIGHER EDUCATION

Department of Mathematics: *Mathematics (majors in). *Information Technologies Software Support. *Economic Cybernetics (majors in). *Applied Mathematics (majors in).

Department of Physics: *Physics (majors in). *Automated Systems of Data Processing. *Physics. Technical Creative Work. *Physical Electronics.

Department of Economics: *Accounting, Analysis and Audit (majors in). *Economics and Business Management. *Commercial Activity. *Finance and Credit. *World Economy. *Public Administration.

Department of History: *History (majors in). *Museum Studies and Protection of Historical and Cultural Heritage (majors in). *History. Additional Speciality (English).

Department of Biology: *Biology (majors in). *Forestry.

Department of Geology and Geography: *Geography (majors in). *Geoecology. *Geology and Mineral Prospecting.

Department of Philology: *Belarusian Philology (majors in). *Russian Philology (majors in).

Department of Law: *Jurisprudence.

Department of Psychology and Pedagogics: *Psychology. *Social Pedagogy. *Practical Psychology.

Department of Foreign Languages: *Foreign Languages (specifying the languages). *English. German. *English. French. *German. English. *Foreign Language (English). *Informatics.

Department of Physical Culture: *Physical Education.

Department of Teaching and Learning of Foreign Students: *Pre-Tertiary Studies for Foreign Students.

SPECIALTIES OF THE 2nd LEVEL OF HIGHER EDUCATION

Department of Physical Culture: *Theory and Methods of Physical Education, Sports Training, Health-Improving and Adaptive Physical Education.

Department of Psychology and Pedagogics: *Pedagogical Studies, History of Pedagogy and Education. *Psychology.

Department of Foreign Languages: *Germanic Languages (English, German).

Department of Philology: *Linguistics.

Department of History: *World History. *National History.

Department of Law: *Jurisprudence.

Department of Economics: *World Economy. *Finance, Currency in Circulation and Credit. *Economics and Management of the National Economy. *Accounting and Statistics.

Department of Biology: *Biology

Department of Mathematics: *Mathematics. *Applied Mathematics and Informatics.

Department of Physics: *Physics.

Department of Geology and Geography: *Geoecology. *World and National Geology.

e-mail: rector@gstu.by

It was founded in 1968. The university is one of the leading technical universities of the Republic of Belarus and trains engineers and highly qualified scientific personnel for industries such as mechanical engineering, metallurgy, energy, economy, electronics and information technology. The University participates in the implementation of national and inter-university research programs, is actively cooperating in the field of Education and Research with the Center for Theoretical Physics Abdus Salam (Trieste, Italy), Trieste and Padua University, the Joint Institute for Nuclear Research (Dubna), the Institute of Low Temperature and Structure Research, Polish Academy of Sciences (Wroclaw), the National Technical University of Ukraine "Kyiv Polytechnic Institute" and number of other foreign agencies and educational institutions.

FACULTY

386 – the number of teaching professors (14 Grand PhD, 141 PhD)

SPECIALTIES OF THE Ist LEVEL OF THE HIGHER EDUCATION

Department of Economics and Humanities: *Marketing. *Management. *Economics and Business Management. *Economics and Organization of Production (mechanical engineering).

Department of Mechanical Engineering: *Mechanical Engineering Technology. *Technological Equipment for Mechanical Engineering. *Development and Operation of Oil and Gas Fields. *Hydro-pneumatic Systems of Mobile and Technological Machines.

Department of Engineering: *Packing Manufacture (Technological Equipment for Packing Manufacture). *Design and Manufacture of Farming Equipment. *Equipment and Technology for Material Pressure Shaping. *Casting Equipment and Technology. *Metallurgy Production and Material Working.

Department of Automated Systems and Data Processing: *Information Systems and Technologies (in Design and Manufacture). *Automation Electric Drive. *Industrial Electronics.

Department of Power Engineering: *Electric Power Supply. *Electric Power Systems and Networks. *Industrial Heat Power Engineering. *Electric Power Supply by Industries.

SPECIALTIES OF THE IInd LEVEL OF THE HIGHER EDUCATION

*Economics and Management of The National Economy. *Mechanical Engineering and Engineering Science. *Mathematical Modelling, Numerical Techniques and Program Complexes. *Technology and Equipment for Production of Semiconductors, Materials and Electronic Engineering Devices. *Metallurgy. *Power Engineering.

ADDITIONAL EDUCATIONAL DIVISIONS

Department of Preparatory Program

Department of Professional and Retraining

Postgraduate studies

COST OF EDUCATION PER ACADEMIC YEAR

Department of Preparatory Program: \$1800

The Ist level of the higher education: \$2000 - 3000

The IInd level of the higher education (Master`s degree program): from \$3500

Department of Professional and Retraining: \$883 - 1402

AMENITIES: the 2nd – the 3rd bed-rooms in a well-planned hostel are provided to foreign students. All rooms are provided with furniture and necessary equipment and facilities. Material base of dormitories meet modern requirements. Dormitories are equipped with facilities for recreation, self, holding discos, work teams and clubs. There are all conditions for the educational, cultural and recreational work: work canteens, clubs, gyms, rooms for table tennis, aerobics, volleyball, basketball courts.

CAMPUS LIFE: there are 9 sports at sports club: arm wrestling, basketball, volleyball, weight lifting, track and field, table tennis, sport aerobics, mini soccer, handball. The following clubs work in the student club of amateur university: folk song, folk dance, pop dance ensemble, vocal and instrumental ensemble, art song club, the club of intellectual games, vocal studio pop singing

It was founded in 1944. The university at high scientific and methodical level prepares pedagogical specialists of the top skills on 4 specialties and in 27 specialties demanded in the modern market of educational services. The international cooperation is actively developed with Institute of applied optics of The University named after F.Schiller (Vienna, Germany), Beltsky state university named after A.Russo (Moldova), Russian research institute of physical culture and sport (Russia), etc.; the university also interacts with such international organizations, as the German service of a pedagogical exchange, the German service of the academic exchanges (DAAD), Goethe's Institute (Germany).

FACULTY

327 – the number of teaching professors (6 Grand PhD, 114 PhD)

SPECIALTIES OF THE 1st LEVEL OF THE HIGHER EDUCATION

Department of Philology: *Russian Language and Literature. *History. *Sociopolitical Disciplines. *English, German. *German, English. *Belarusian Language and Literature. *Foreign Language (German). *Belarusian Language and Literature. *Foreign Language (English).

Department of Biology: *Biology and Chemistry. *Biology (Scientific Production Activity).

Department of Physics and Mathematics: *Mathematics and Informatics. *Physics and Informatics. *Applied Mathematics (Scientific Pedagogical Activity). *Mathematical Physics.

Department of Technology: *Technical activity and business. *Service and business. *Service and the fine arts. *Social work (social and pedagogical activity).

Department of Engineering and pedagogics: *Professional Training (Agricultural Engineering). *Professional Training (Building). *Professional Training (Machine Building).

Department of physical training¹: *Physical Training. *Special Training. *Physical Training, Health, Fitness, Tourist and Recreational Activity. *Physical Training, Trainer's Work in Particular Sport (rowing on kayaks and a canoe, rowing academic, track and field athletics)².

¹ The medical certificate of the entrants at Department of physical training has to have a record that training on the chosen specialty isn't contraindicated to them.

² The entrants to specialization "Trainer's Work in Particular Sport (rowing on kayaks and a canoe, rowing academic, track and field athletics)" should correspond the performance standards on one of specified sports.

SPECIALTIES OF THE 2nd LEVEL OF THE HIGHER EDUCATION

Department of Philology: *Linguistics.

Department of Biology: *Biology.

Department of Physics and Mathematics: *Physics.

Department of Technology: *General Pedagogy Studies, History of Pedagogy and Education.

ADDITIONAL EDUCATIONAL DIVISIONS

Department of Preparatory Program

COST OF EDUCATION PER ACADEMIC YEAR

Department of Preparatory Program: \$1400

The Ist level of the higher education: by individual calculation

The IInd level of the higher education (Master`s degree program): by individual calculation

AMENITIES: 2 or 4-bed rooms in a block type student's hostel are provided to students.

CAMPUS LIFE: the sports club of university carries out the organization and presentation of sports and improving actions, healthy lifestyle promotion, elite sport promoting. Activity of sanatorium dispensary is directed on the organization of rest and treatment, a balanced diet, on strengthening health of students.

Department of Law: *Jurisprudence. *Economic Law. *International Law.

Department of Economics and Management: *World Economy. *Finance and Credit. *Economics and Business Management. *Accounting, Analysis and Audit (majors in). *Commercial Activity. *Management (majors in). *Information Systems and Technologies (majors in).

Department of Biology and Ecology: *Biology (majors in). *Bioecology. *Foodstuff Production and Catering Management.

Department of Mathematics and Informatics: *Mathematics (majors in). *Applied Mathematics (majors in). *Economic Cybernetics (majors in). *Information Technologies Software Support. *Computer Science. *Computer Security (majors in). *Information Resource Management.

Physico-Technical Department: *Physics (majors in). *Radiophysics. *Information-Measuring Equipment. *Industrial Electronics. *Technical Exploitation of Power Equipment of Organizations.

Department of Innovative Mechanic Engineering: *Equipment and Technologies of Highly Effective Processes of Materials Processing. *Technical Vehicle Exploitation (majors in). *Transport Logistics (majors in).

Department of Engineering and Construction: *Industrial and Civil Construction. *Production of Building Manufactured Articles and Constructions.

Military Department: *Physical Training of Military Servicemen. *Combat Service Support.

Department of Tourism and Service: *Tourism and Hospitality.

Department of Physical Education: *Physical Training.

SPECIALTIES OF THE IInd LEVEL OF HIGHER EDUCATION

Department of Pedagogy: *Theory and Methods of Teaching and Upbringing (in the field of Primary Education). *Pedagogical Studies, History of Pedagogy and Education.

Department of Mathematics and Informatics: *Theory and Methods of Teaching and Upbringing (Mathematics, Informatics). *Mathematics. *Applied Mathematics and Informatics.

*Computers and Computer Systems. *Mathematical Modelling, Numerical Techniques and Program Complexes.

Physico-Technical Department: *Theory and Methods of Teaching and Upbringing (in the field of Physics). *Physics. *Radiophysics.

Department of Physical Education: *Theory and Methods of Physical Education, Sports Training, Health-Improving and Adaptive Physical Education.

Department of Arts and Design: *Music Art

Department of Philology: *Germanic Languages. *Romance Languages. *Comparative and Historical, Typological, and Comparative Linguistics. *Literatures of Foreign Countries (with the indication of specific literature). *Literary Studies. *Linguistics.

*Language Theory. *Applied and Computational Linguistics. *Journalism.

Department of History and Sociology: *World History. *National History. *Sociology.

Department of Psychology: *Psychology.

Department of Social Sciences and Humanities: *Politology

Department of Law: *Jurisprudence.

Department of Economics and Management: *World Economy. *Finance, Currency in Circulation and Credit. *Economics and Management of The National Economy. *Mathematical and Instrumental Methods in Economics.

Department of Biology and Ecology: *Biology. *Ecology.

Department of Innovative Mechanic Engineering: *Construction Materials Processing in Mechanical Engineering. *Transport Studies.

Department of Engineering and Construction: *Construction.

ADDITIONAL EDUCATIONAL DIVISIONS

Department of Preparatory Program

Postgraduate Studies

Department of Professional and Retraining

Russian Courses

COST OF EDUCATION PER ACADEMIC YEAR:

Department of Preparatory Program: \$1800

The Ist level of higher education: \$2200 - 2500

The IInd level of higher education (Master's degree program): \$2200

Russian Courses (80 - 800 hours): \$270 - 1650

AMENITIES: foreign students are accommodated in 2-4 bedroom apartments at the Residence Halls. Students can utilize facilities for fitness and aerobics classes, computer labs, study rooms, lounges, and cafeterias.

CAMPUS LIFE: students are engaged in cultural and sport events at the university: urban festivities, Republican Multinational Culture Festival, concert tours. FREQUENTLY ASKED QUESTION?

- **What requirements entrant should fulfill to be accepted to the Belarusian educational institution?**

Main requirements to entrants:

1. Sufficient level of the previous education (senior secondary education).
2. Sufficient level of Russian.

The entrant whose level of Russian isn't suitable for studying can be enlisted on training courses where Russian and other subjects depending on the chosen specialty are studied.

Foreign citizens who completed a full course of training at Department of Pre-Tertiary Studies, successfully passed final tests and have the confirming certificate are enlisted on subsequent studying without entrance tests on the interview basis.

The entrant who can't acquire Russian and pass final tests at Department of Pre-Tertiary Studies would be deducted and had to leave Belarus. In exceptional cases repeated training courses are allowed.

- **Which documents are necessary for application?**

To pass preliminary selection foreign citizens provide the following documents to the Department of international relations of educational institution:

- 1) The fulfilled Questionnaire;
- 2) Notarized and translated into Russian copies of the educational certificate with the indication of the studied subjects and the received estimates/points (the certificate of senior secondary education / diploma of higher education and the annex to it; other certificates on professional development, foreign language, etc.);
- 3) The notarized copy of medical certificate, given out by official medical institution of the candidate resident country (a sample of the medical certificate); citizens of Turkmenistan should submit the certificate in a form 086/h (with a translation into Russian);
- 4) Copy of the passport valid for period of studying and its notarized translation into Russian (if passport not in Russian);
- 5) The one page motivation letter with justification of a specialty choice (explain specifically as the specialty choice is connected with previous education and future plans);
- 6) Post envelope with the return address.

Documents are sent to educational institution by mail with a mark "The application for study". The specialized committee examines filed documents and makes preliminary selection of candidates for studying.

In a case of positive decision educational institution sends the candidate the official invitation to the study, necessary to obtain the educational visa in consular institution of Republic of Belarus in a candidate resident country (for foreign citizens from the countries with a visa regime of entrance to Republic of Belarus).

- **Which documents foreign citizen should provide to the specialized committee on the arrival to Republic of Belarus?**

- 1) The application questionnaire of the established sample;
- 2) The original educational certificates with the indication of the studied subjects and the received estimates/points;
- 3) The original of medical certificate, confirming the possibility of foreign citizen studying in the Belarusian climatic conditions, assured by official medical institution of the candidate resident country;
- 4) The medical certificate on AIDS status, given out by medical institution of the candidate resident country;
- 5) A notarized copy of the birth certificate;
- 6) 6-8 photos of 3x4 cm in size.

- **How much is the studying in Belarus?**

Traditionally studying in Belarus for foreign citizens is paid. Training cost as it's in international practice is established by educational institution for each specialty and depends on the chosen specialty, form of education and educational institution.

- **When studying in Belarus begins?**

Academic year in Republic of Belarus begins on September 1 and is divided in 2 semesters: 01.09 – 31.01 and 10.02 – 30.06.

For foreign entrants the rigid periods of application in educational institution aren't determined. Every institution has the right to accept foreign entrants during the whole academic year.

- **When filing documents for studying in Belarus?**

Documents in Russian or English should be submitted no later than in 2 months before academic year beginning by mail, to the fax or an e-mail. Advices on any questions can be received on Skype: icec.icec

- **Whether foreign student receive a place in a university hostel?**

The providence of a place in a hostel to foreign students is guaranteed. 2-3 persons live in the room. The cost of a place in a hostel is 10 - 30 USD per month.

Accommodation on leased apartments is also available. In Minsk city the rent depends on apartment comfort and an arrangement and varies from 200 to 350 USD per month. In other cities the rent is much lower. Educational institutions have established contacts with estate agencies. For their services agencies take commission charges.

Practically all educational institutions in Belarus assist in obtaining permission to temporary residence, help to find a residence. The majority of students live in hostels. It is convenient and rather cheap.

- **Whether it is necessary to have the medical insurance?**

According to the Belarusian laws all foreign citizens who are temporarily staying at the territory of Republic of Belarus, are obliged to have the medical insurance certificate on any case of receiving medical care. The system of medical insurance allows foreigners to receive any medical care at the territory of Republic of Belarus except for odontology services. All check-points on borders of Belarus, and also the airports and railway stations have offices of the Belarusian state insurance companies where the foreign citizen can issue the insurance medical certificate. Foreign citizens have to issue the medical insurance for the entire period of their stay in Belarus. Registration is rather fast.

Tariffs for medical insurance for foreign citizens fluctuate from one US dollar on two-day stay to 85 US dollars on stay within a year.

In case of absence of the contract of the medical insurance signed with foreign insurance company, corresponding to the criteria established by the Decree and refusal to sign the contract of obligatory medical insurance foreign citizen is refused in the admission through frontier of Republic of Belarus.

Detailed information about medical insurance and the foreign insurance companies which certificate are valid in Republic of Belarus can be received on Belgosstrakh site <http://www.belgosstrakh.by>

- **How to receive the official invitation?**

The foreign citizens before start studying in educational institutions need to receive the official invitation which allows to open the educational visa in consular offices of Republic of Belarus.

To receive the official invitation the foreign citizen has to provide the following documents to education institution:

- 1) the copy of the educational certificates with the indication of the studied subjects and the received estimates/points;
- 2) copy of the passport or other identification document;
- 3) the fulfilled application form (with the indication of passport data, the home address, the phone/fax, an email address);
- 4) Medical certificate on a state of health and on AIDS status given out by medical institution of the candidate resident country.

The documents executed in a foreign language should be translated in Belarusian or Russian and notarized.

After obtaining documents of the candidate for studying, educational institutions carry out their expertise and make the decision on possibility of giving the official invitation.

Institution sends the official invitation to the candidate home address or for Republic of Belarus Embassy or other consular offices in the candidate resident country.

The candidate makes out the educational visa in Republic of Belarus Embassy or other consular offices in the candidate resident country.

The official invitation is free of charge.

- **Do you need educational visa to study in Belarus? How to receive it?**

The educational visa is made out in consular offices of Republic of Belarus in the candidate resident country. Requirements to documents to receive a visa can vary for the different countries so detailed information on it for every region can be found on a site of the Ministry of Foreign Affairs of Republic of Belarus ([http:// www.mfa.gov.by/](http://www.mfa.gov.by/)) or in Embassy of Republic of Belarus in the entrant resident country.

To receive educational visa the entrant should have the official invitation from Belarusian educational institution. In that case the national visa of type B is requested which on arrival lasts (permission to stay) on the basis – study in Republic of Belarus.

The consular fee for the educational visa is paid on a place of receipt for visa. Since September 1, 2012 possibility of receiving all types of entry visas of Republic of Belarus in the Consular Division of the Ministry of Foreign Affairs of the Republic of Belarus at Minsk National Airport remains only for citizens of the foreign states with no diplomatic representations or consular offices of the Republic of Belarus.

- **Documents acceptance dead-lines**

The selection committee of Belarusian educational institution accepts the entrant documents:

- 1) till October 15 – to the main Departments;
- 2) till November 1 – to the Department of Pre-Tertiary Studies.

Magistracy and Department of postgraduate study have no dead-lines.
